

NOAH'S FLOOD - LOCAL OR WORLDWIDE?

**In the Bible, in the book of Genesis,
there is an account given of a flood.**

**We're all familiar with the main
character of the story - his name is
Noah. We are also told that when the
flood came, he got his wife and his three sons and their wives,
and went aboard the ark.**

**After a period of time,
The waters dried up and they found
themselves on dry ground once again.**

**NOW SOME PEOPLE ARE SAYING THAT THIS FLOOD WAS ONLY
A LOCAL
EVENT AND THAT IT DIDN'T
HAPPEN WORLDWIDE.**

WELL, WHAT REALLY DID HAPPEN?

In this article, we'll answer the following questions (and others):

1. Why did God send a flood?
2. How long were they on the ark for?
3. Did the whole earth get covered by the flood waters?

“ O Timothy, keep that which is committed to thy trust, avoiding profane and vain babblings, and OPPOSITIONS OF SCIENCE FALSELY SO CALLED: Which some professing have erred concerning the faith.”

(1 Timothy 6:21)

For all our answers we'll look into the flood account as given in the King James Bible.

“And it came to pass in the SIX HUNDRETH AND FIRST YEAR. IN THE FIRST MONTH. THE FIRST DAY OF THE MONTH, the waters were dried up from off the earth ...And in the SECOND MONTH. [\(Genesis 6:20\)](#)

FURTHER QUESTIONS:

1. If the flood was just local, why couldn't Noah just get all the local animals and clear off to where it was going to be safe? Wouldn't a simpler plan be to move to higher ground somewhere?
2. Why would God bring animals from all over the world to place them in an ark for a local flood, if the flood waters weren't going to touch them anyhow in their original habitats?

CONCLUSION

There are many clever people in the world today that won't believe the King James Bible is God's infallible word. They would rather consult archeologists, climat-ologists, biologists and all the other “ologists” as to whether they think Noah's flood was worldwide. *“Professing themselves to be wise, they became fools.” ([Romans 1:22](#))*

AN INTERESTING QUESTION:

Why was the world's population only approximately 6 billion people in the year 2008? If as the experts say, the world's population doubles (conservatively speaking) every 70 years (taking into account wars, disease etc.) why do we not have trillions living on earth?

ANSWER: The earth is of a very young age and Noah's worldwide flood, which wiped out everybody (except Noah and his family), was very recent.
